Agenda Betreute Landesmeisterschaften

Samstag

09:00 – 09:30	Registration, Coffee
09:30 – 13:00	Match 1
13:00 – 14:00	Lunch Break
14:00 – 17:30	Match 2
17:45 – 21:15	Match 3

Sonntag

08:30 – 09:00	Coffee
09:00 – 12:30	Match 4
12:30 – 13:30	Lunch Break and Best Painted
13:30 – 17:00	Match 5
17:00 – 17:30	Award Ceremony

Pairing

The Pairing of the Matches is according to the normal procedures.

- a) Each team presents one army, simultaneously
- b) Each team offers two army . face down., which are uncovered simultaneously again.
- c) Each team decides, which of the two armies presented in step b) shall play against its own army chosen in step a), the remaining army is returned to the opponent.
- d) The own unselected third army from step b) will play against the army of the opponent returned under c.

Deployment and Secondary Objectives are randomised for each match individually after pairing.

Deployment

According to the rulebook (version 2.0)

- 1: Frontline Clash
- 2: Dawn Assault
- 3: Counterthrust
- 4: Encircle
- 5: Refused Flank
- 6: Marching Columns

Deployment Types

(Quelle: T9A Rulesbook 2.0)

1: Frontline Clash

Deployment Zones are areas more than 12" away from the Centre Line.

2: Dawn Assault

The player choosing the Deployment Zone also chooses a short Board Edge and the other player gets the opposite short Board Edge. Deployment Zones are areas more than 12" away from the Centre Line and more than 1/4 of the board's length from the opponent's short Board Edge (18" on a 72" board).

When declaring Special Deployment, players may choose to keep up to two of their units as reinforcement. These units follow the rules for Ambush ing units, except that they must be placed touching the owner's short Board Edge when they arrive.

3: Counterthrust

Deployment Zones are areas more than 8" away from the Centre Line. Units must be deployed more than 20" away from enemy units. During their first 3 deployment turns, each player must deploy a single unit, and cannot deploy any Characters. Units using Special Deployment, such as Scout, ignore these restrictions and follow their Special Deployment rules.

4: Encircle

The table is divided into halves by a straight line through the centre of the board, parallel to the table's long edges. The player who gets to choose the Deployment Zone decides if they want to be the attacker or the defender. The attacker may deploy more than 9" from the central line if within a quarter of the table's length from either table edge (18" on a 72" table), and more than 15" from the central line elsewhere. The defender does the opposite: more than 15" away from the central line if within a quarter of the table's length from the short table edge, and more than 9" away from the central line elsewhere.

5: Refused Flank

The board is divided into halves by a diagonal line across the board. Whoever gets to choose the Deployment Zone decides which diagonal to use. Deployment Zones are areas more than 9" away from this line.

6: Marching Columns

Deployment Zones are areas more than 12" away from the Centre Line. Each player must choose a short Board Edge when deploying their first unit. Each unit this player deploys afterwards must be deployed with its Centre farther away from the chosen short Board Edge than the Centre of the last unit this player deployed (measure from the closest point on the short Board Edge). Characters, War Machines, War Platforms, and Scouting units ignore these rules.

During their first 3 deployment turns, each player must deploy a single unit, and cannot deploy any Characters, War Machines, or War Platforms.

Instead of deploying a unit, a player may choose to make all their undeployed units Delayed that are not using Special Deployment. Delayed units follow the rules for Ambushing units with the following exceptions:

- In each Player Turn, after rolling for all Ambushing units, the Reactive Player chooses the order in which all Delayed units that passed the 3+ roll enter the Battlefield.
- In the chosen order, each unit must be placed one after the other with the centre of its rear rank as close as possible to the centre of the long Board Edge in their owner's Deployment Zone, before any non-Delayed Ambushers are placed on the Battlefield.
- After all arriving units have been placed, they can be moved as described in the rules for Ambush (see page 93).

Secondary Objectives

According to the rulebook (version 2.0)

- 1: Hold the Ground
- 2: Breakthrough
- 3: Spoils of war
- 4: King of the hill
- 5: Capture the flags
- 6: Secure Target

Secondary Objectives

(Quelle: T9A Rulesbook 2.0)

1: Hold the Ground

Mark the centre of the board.

At the end of each Game Turn after the first, the player with the most Scoring Units within 6" of the centre of the board gains a counter. At the end of the game, the player with the most such counters wins this Secondary Objective.

2: Breakthrough

The player with the most Scoring Units inside their opponent's Deployment Zone at the end of the game, up to a maximum of 3, wins this Secondary Objective.

3: Spoils of War

Place 3 markers along the line dividing the board into halves (the dashed line in the figures describing Deployment Types). One marker is placed with its centre on a point on this line that is as close as possible to the centre of the board while still being more than 1" away from Impassable Terrain. The other two markers are placed with their centres on points on this line that are on either side of the central marker, as close to the centre of the board as possible but at least a third of the length of the long Board Edge (24" on a standard board) away from it, and more than 1" away from Impassable Terrain.

At the start of each of your Player Turns, each of your Scoring units that is not carrying a marker may pick up a single marker whose centre they are in contact with. Remove the marker from the Battlefield: the unit is now carrying the marker. Units carrying a marker with less than 3 Full Ranks cannot perform March Moves. If a unit carrying a marker is destroyed or loses Scoring, the opponent must immediately place the marker carried by this unit with its centre on a point within 3" of it. Ignore Post-Combat Reform for this purpose. This point cannot be within 1" of Impassable Terrain, but it can be inside a unit.

At the end of the game, the player with the most units carrying markers wins this Secondary Objective.

4: King of the Hill

After Spell Selection (at the end of step 7 of the Pre-Game Sequence), both players choose a Terrain Feature that isn't Impassable Terrain and that is not fully inside their Deployment Zone, starting with the player that chose their Deployment Zone (note that both players may choose the same Terrain Feature).

A player captures their opponent's chosen Terrain Feature if any of the player's Scoring Units are inside that Terrain Feature at the end of the game. If a player captures their opponent's chosen Terrain Feature while not allowing their own to be captured, they win this Secondary Objective.

5: Capture the Flags

After Spell Selection (at the end of step 7 of the Pre-Game Sequence), mark all Scoring Units on both players' Army Lists. If either player has less than 3 marked units, their opponent must mark enough units from this player's Army List so that there are exactly 3 marked units in the army, starting with the player that chose their Deployment Zone.

The player that has the lowest number of their marked units removed as casualties at the end of the game wins this Secondary Objective.

6: Secure Target

Directly after determining Deployment Zones, both players place one marker on the Battlefield, starting with the player that chose their Deployment Zone. Each player must place the marker with its centre on a point that is more than 12" away from their Deployment Zone and a third of the long Board Edge length (24" on a standard board) from the point marked by the other marker.

At the end of the game, the player controlling the most markers wins this Secondary Objective. A marker is controlled by the player with the most Scoring Units within 6" of the centre of the marker. If a unit is within 6" of the centres of both markers, it only counts as within 6" of the centre of the marker which is closest to its Centre (randomise if both markers' centres are equally close).

Points

Battle Points:

The Cap is at 50 Points, therefore a total of 250 points can be achieved. In the last round there is no downside collar.

Painting:

Each Player can achieve 10 Points for Painting;

- 1-5 Points for the number of models painted
- 1-2 Points for Bases
- 1 Points for Regiment trays fitting to the bases
- 1 Point for Wysiwyg on Charakteren
- 1 Point for Wysiwyg on Command group
- 1-2 Points for Wow!-Effects
- 1 Point for Proxis

Penalties:

- 20 Points missing the dead line for filing army lists
- 1 Point for more any overtime (from the first minute onwards)
- 5 Points for more than 5 Minutes overtime
- 15 Points for more than 10 Minutes overtime
- After 15 Minutes overtime we reserve the right to deny any further results and assume a 0:0 for both teams

The time of entry on turneykeeper is relevant.

On Saturday night the time constraints can be waived if both players and both team captains confirm this one hour in advance to the judges. If this is not announced in time, the time constraints and penalties will occur without any further discussion!
